

Updated state profiles showing the financial impact of scheduled Medicare physician payment cuts, number of Medicare beneficiaries, number of employees in physician practices, and workforce statistics for each state have been posted on the AMA's web sites. We encourage you to use this information to persuade your legislators that Congress must address the upcoming Medicare physician payment cuts during the first week of its lame duck session in November. The profiles can be accessed at: www.ama-assn.org/go/medicarepaymentkit.
